

December 2014

Dear Neighbors,

The Weston Education Foundation (WEF) is proud to be celebrating its 20th year in Weston. Your generous donations have allowed us to fund initiatives that cultivate meaningful learning experiences for our community. I invite you to partner with WEF as we move forward to 2015 and support excellence and innovation in education.

WEF Paved the Way

WEF has awarded nearly \$800,000 in educational grants over the last 20 years. Our generous donors have enabled us to enrich learning for students at the Weston schools and for community groups in Weston. WEF grants have introduced new technology to Weston students, brought

in experts-in-residence to our schools, and supported curriculum development. WEF has partnered with other non-profit organizations in Weston, such as the Weston Library and the Girl Scouts, to bring educational programs to all Weston residents. WEF has helped our schools to pilot and implement innovative initiatives that would not have been possible in difficult budget times. This timeline shows just a fraction of the important work WEF has done over the years.

Current Initiatives

This year, WEF is continuing to fund grants that support our schools across a variety of disciplines. Thanks to WEF grants, students at Weston Intermediate School and Weston Middle School will have the opportunity to participate in robotics clubs. This program will generate both interest and advanced skills among students in the increasingly important area of Science, Technology, Engineering and Math (STEM). A grant to pilot the Weston High School

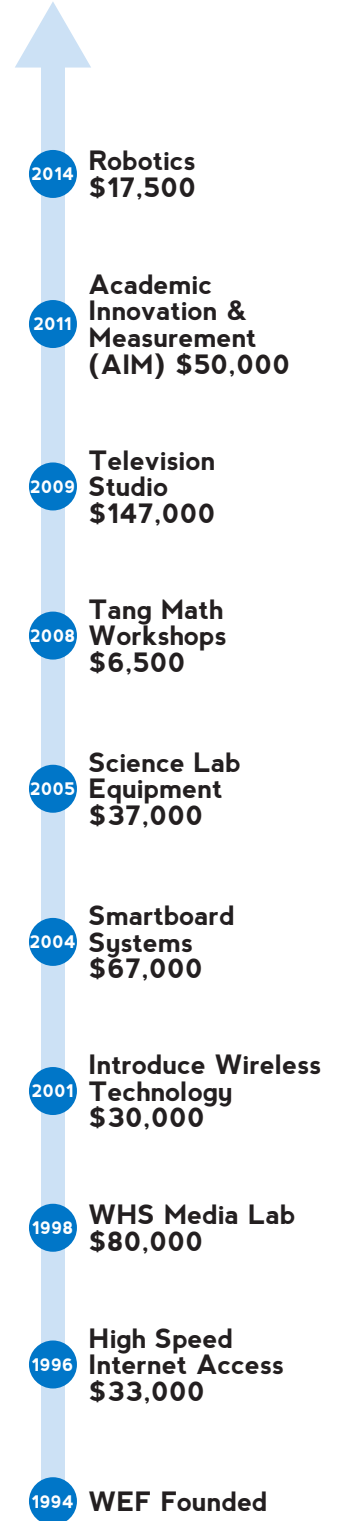

Writing Center will bring in a writing consultant to facilitate student workshops and professional development and to create an online writing resource. The writing center will promote excellence in writing across all disciplines.
